DEEP RAJAK

PROFILE

Hi, I'm Deep Rajak—a passionate web developer and AI/ML enthusiast constantly expanding my skill set. With a solid foundation in HTML, CSS, JavaScript, and React, along with backend experience in Node.js, I enjoy building modern, responsive web applications. My knowledge extends to Python and C programming, giving me a strong technical base for diving into AI and machine learning. I'm driven by curiosity and the goal of creating impactful, data-driven solutions that bring ideas to life. Let's connect and explore the possibilities of technology together!
